- h) **Up to 80 programmable keys, (8 lines+ 72 paperless programmable keys).**
- i) **MPL&EP+ Support external APPLE/Android mobile phone.**
- j) **2 built-in USB interface, USB1 support external UniWIFI / UniBT adapter. USB2(near EXT port) only for charging.**
- k) **Support EHS and EXT support connect USM18-LCD expansion module.**

---

## 2. Set up the Phone

### a) Packing List:

Check the packing list before installation, if you find anything missing, contact your system administrator.

- 1\*ES680-PEG IP Phone
- 1\*Handset
- 1\*Handset Cable
- 1\*Ethernet Cable
- 1\*Quick Operation Guide
- 1\*Power Adapter
- 1\*Bracket

IP Phone

Handset

Cable

Quick Operation Guide

**Ethernet Cable**

**Bracket**

**Power Adapter**

**NOTE:** The cable install method is short A connect the handset, longer B connect the IP Phone.

**b) Phone Installation:**

This section introduces how to install the phone with the components in the packing list:

- Adjust the Bracket
- Connect the Handset and optional Headset
- Connect the Network and Power

**Adjust the Bracket**

Pls follow the following picture to let the bracket adjust to safety

Desk Mount Method

**Connect the Handset and optional Headset**

**Connect the Network and Power**

---

You have two options for power supply. Your system administrator will advise you which one to use.

- AC power adapter
- POE(Power over Ethernet) IEEE802.3af
- USB(Standard 0.5A)

Note: If inline power (PoE:Power over Ethernet) is provided, you don't need to connect the power adapter. Make sure the Ethernet cable and hub/switch are PoE compliant; The EXT port can also be used to connect the expansion module ESM18-LCD.

Delete group	<p>--1) Press "DIR" soft key,</p> <p>-or press "<b>MENU</b>" button &gt; "Phone book"&gt;"Personal phone book"&gt;"View All",</p> <p>-or press "<b>OK</b>" button &gt; "Phone book"&gt;"Personal phone book"&gt;"View All";</p> <p>--2) Select the "Delete group" or <b>OK</b> button;</p> <p>--3) Select a group you want to delete, press <b>OK</b> button</p>

## LDAP

Search the Contacts from LDAP	<p>--1) Press "DIR" in the idle,</p> <p>-or press "<b>MENU</b>" or OK "button" &gt; "Phone book"&gt;"LDAP",</p> <p>--2) Select "LDAP", press "<b>OK</b>" button;</p> <p>--3) Press "Find" and input the name or number who you want to find search from the LDAP server.</p>
Call the Contact from LDAP	<p>--1) Press "DIR" in the idle,</p> <p>-or press "<b>MENU</b>" or "OK" button &gt; "Phone book"&gt;"LDAP",</p>

	<p>--2) Select "LDAP", press "OK" button;</p> <p>--3) Press "Find" and input the name or number who you want to find from the LDAP server.</p> <p>--4) When you search the person, you can dial it.</p>
--	---

## Black List

Add the Contacts	<p>--1) Press "DIR" in the idle, -or press "MENU" or "OK" button &gt; "Phone book"&gt;"Black List",</p> <p>--2) Select "Black List", press "OK" button;</p> <p>--3) Press "Add" and input the name\office number\mobile number\other number\SIP account who what you want to add into the Black List.</p>
View the Contact from Black List	<p>--1) Press "DIR" in the idle, -or press "MENU" or "OK" button &gt; "Phone book"&gt;"Black List",</p> <p>--2) Select "Black List", press "OK" button;</p> <p>--3) Press "RUN" to view someone who what you want to find.</p> <p>--4)If you want to move or change it, you can follow the RUN to do.</p>

## 3.6.2 Using Call Logs

Your phone maintains records of your missed, placed, and received calls.

View call logs	<p>--1) Press "MENU" or "LOG" button &gt; "All Call" &gt; "Missed Calls", "Received Calls", or "Dialed numbers"</p> <p>--2) Use the navigation keys to view the call record information.</p>
Delete/Save Call Logs	<p>--1) Login in to the Call Logs</p> <p>--2) Use the navigation keys to view the call record or select DEL key.</p> <p>--3) Use the navigation keys to view the call record or select Save</p>

	key.
--	------

### 3.6.3 Peer-to-Peer

When all of the phone accounts were disable or not register. it will be show this mode in the idle. It can use by when the new workstation isn't have SIP server.

Peer-to-Peer	Disable all of accounts or not register.
Make Call with Peer-to-Peer	--1) Press OK or MENU button> System Setting> Advanced Setting> SIP Account; --2) Disable all of accounts or un-register; --3) Turn back the phone idle, you can call someone use IP address.

### 3.7 Keypad Setting

SayHi series IP Phone can through two ways configuration it, one is setting in MENU, another is setting in website. Here just description in MENU.

NOTES: When you want to input the IP address like ".", it was replaced by the "\*".

#### 3.7.1 Language Setting

ES680-PEG IP Phone support Multi-Language setting, as below is an example.

Switch the Language between Chinese and English	--1) Press OK or MENU button> System Setting> Phone Setting> Language --2) Here you can select English\French\Italian\Polish\Portuguese\Russian\Spanish\Turkish\Chinese --3) After you finish select, press Save to make it work.
---	--

#### 3.7.2 Message

ES680-PEG have Message feature. It will display in the LCD when it has a New Message.

Create Message	a	--1) Press OK or MENU button; --2) Select "Messaging" --3) Voice Message: Setting the Voice Message code in here.
----------------	---	---

	<p>Text Message: Write down the Text Message in here.</p> <p>--4) Select Text Message&gt; New Message.</p> <p>--5) Input the receiver and write down message body, and then press send to finish.</p>
Message Inbox	<p>--1) Select Message Inbox.</p> <p>--2) Select which one you want to check.</p> <p>--3) You can press Enter to read or press Del to delete.</p>

### 3.7.3 Time & Date

SNTP	<p>--1) Press OK or MENU button;</p> <p>--2) Press OK or MENU button&gt; System Setting&gt; Phone Setting&gt; Time &amp; Date&gt; Time and Date setting&gt; SNTP</p> <p>--3) SNTP</p> <p>-<b>Time Zone:</b> Setting the time zone</p> <p>-<b>NTP Server 1:</b> NTP server address 1</p> <p>-<b>NTP Server 2:</b> NTP server address 2</p> <p>-<b>DayLight:</b> Enable/Disable Day Light</p>
SIP Server	<p>--1) Press OK or MENU button;</p> <p>--2) Press OK or MENU button&gt; System Setting&gt; Phone Setting&gt; Time &amp; Date&gt; Time and Date setting&gt;SIP Server</p> <p>--3) Press Save to make it work</p>
Manual Setting	<p>Press OK or MENU button;</p> <p>--2) Press OK or MENU button&gt; System Setting&gt; Phone Setting&gt; Time &amp; Date&gt; Time and Date setting&gt; Manual Setting</p> <p>--3) Manual Setting</p> <p>- Manual Setting: Year\Month\Days\Hours\Minutes\Seconds</p>
Time Display Format	<p>--1) Press OK or MENU button;</p> <p>--2) Press OK or MENU button&gt; System Setting&gt; Phone Setting&gt; Time &amp; Date&gt; Time Display Format</p> <p>--3) Time Mode: 24hour\12hour</p> <p>Date mode:</p> <p>DDMMWWW\MMDDWWW\WWWDDMMM\DDMMYY\YYYYMMDD\ DDMMYYYY\MMDDYY\DDMMYYYY\WWWDDMMM etc.</p>

### 3.7.4 Ring Tone and Volume Setting

Ring Type	<p>--1) Press OK or MENU button;</p> <p>--2) Press OK or MENU button&gt; System Setting&gt; Phone Setting&gt;Ring Type</p> <p>--3) Select the ring type from 1 to 8 or custom ring, and then press Save to make it work.</p>
-----------	--

Volume Setting	--1) Press OK or MENU button; --2) Press OK or MENU button> System Setting> Phone Setting> Volume Setting --3) Volume Setting: Handset\Speaker\Headset\Ring volume --4) Press Enter to adjust the volume and press Save to make it work
----------------	--

NOTES: For the Custom Ring Type you need to upload it from website.

### 3.7.5 Searching Phone Book

Accurate Search	--1) Press <b>MENU</b> or <b>OK</b> button > "Function Setting", you can select " Accurate Search " --2) Then press Enable/Disable and Save. --3) When you back to idle, you can use the digital keypad to search the contact.
T9 Search	--1) Press <b>MENU</b> or <b>OK</b> button > "Function Setting", you can select " T9 search " --2) Then press Enable/Disable and Save. --3) When you back to idle, you can use the digital keypad to search the contact.

NOTES: The Search Phone Book setting default is Accurate Search.

### 3.7.6 Cannot Set the Features with Keypad

As below features are cannot setting with the keypad:

- 1) Dial Plan.
- 2) Custom Ring Type
- 3) SNTP Server and Time & Date
- 4) Update the Firmware or Backup.

## 4. WEB User Interface

In addition to the phone user interface, you can also customize your phone via web user interface. In order to access the web user interface, you need to know the IP address of your new phone. To obtain the IP address, press the C key on the phone. Enter the IP address (e.g. HTTP://192.168.0.10 or 192.168.0.10) in the address bar of web browser on your PC. The default user name is admin (case-sensitive) and the password is admin (case-sensitive).

Username   
 Password    
 Language  

**Main Interface-Phone Status**

Here you can see as below information: System Run Time, Register Status, Network Status, System Information,

ITEM	DESCRIPTION
System Run Time	The phone system normal running time.
Register Status	The status with Account 1~8.
Network Status	The status with LAN, MAC, LAN IP, Net mask, Gateway, Primary DNS, Secondary DNS, VPN IP, PC IP, PC Net mask, Device Type, DHCP Server.
System Information	The status with Phone Model, Software Version, Hardware Version, Hardware ID, Kernel Version, Auto-Provision Server URL, TFTP Server IP.

## 4.1 Network

### 4.1.1 Wi-Fi Setting

Current location: Network > Wi-Fi Setting

Wi-Fi Setting

WiFi:  off  on

Enter the SSID of the Wi-Fi AP(SSID).

Wireless Network Name(SSID):

SSID	BSSID	Band	Encryption	Signal	Select
IP-COM-5G_0359E9	d8:38:0d:03:59:e9	5785	[ESS]	100%	<input type="radio"/>
Sc	d8:38:0d:03:59:e1	2412	[WPA2-PSK-CCMP][ESS]	97%	<input type="radio"/>
ChinaNet-XdFJ	c4:04:7b:94:12:25	2412	[WPA-PSK-TKIP+CCMP] [WPA2-PSK-TKIP+CCMP] [WPS][ESS]	96%	<input type="radio"/>
A1	f4:83:cd:fe:1e:96	2412	[WPA-PSK-CCMP][WPA2-PSK-CCMP] [ESS]	96%	<input type="radio"/>
Aeromat_Mobile	50:6a:03:ad:2c:5b	2457	[WPA2-PSK-CCMP][WPS] [ESS]	92%	<input type="radio"/>

## 4.1.2 LAN Port

DHCP ?

Hostname(Option 12)

Manufacturer(Option 60)

User Class Information(Option 77)

Static IP ?

IP Address

Subnet Mask

Gateway

Static DNS  on  off

Primary DNS

Secondary DNS

PPPoE ?

Username

Password

MTU  Default: 1500

ITEM	DESCRIPTION
Network Connection Mode	Network Connection Mode has DHCP, Static IP, PPPoE
DNS Settings	Select the DNS mode that you want.

## 4.1.3 PC Port

As bridge ?

As router ?

IP Address

Subnet Mask

Router DHCP  off  on

Start IP address

End IP address

### AS Bridge

Normally, you should choose “bridge” feature, it means that pc port and LAN port will share the same network.

## AS Router

Router feature is for the phone PC Port. You must input IP address (it’s equivalent to a gateway) and Net mask.If you want to use DHCP function, please turn it on, input start IP and end IP.

### 4.1.4 Advanced

## VPN Setting

When using VPN Setting option, you can set several parameters as follow:

VLAN Setting	
Enable VPN	You can enable/disable VPN for phone and pc.
VPN Type:	Choose the appropriate type of VPN.
VPN Server Addr	VPN server's IP.
VPN User Name	VPN user's name
VPN Password	A password be used for authentication
OPEN VPN	Upload the *.ovpn file to the phone
Upload VPN cfg	Select the VPN configuration to upload

## VLAN Setting

**VLAN Settings >>**

**LAN Port**

Enable VLAN

VID  (0~4094)

Priority  (0~7)

**PC Port**

Enable VLAN

VID  (0~4094)

Priority  (0~7)

When using VLAN Setting option, you can set several parameters as follow:

VLAN Setting	
Enable VLAN	You can enable/disable VLAN for phone and PC
VID [LAN/PC Port]	The VLAN ID you want the phone or PC to join

## Port Management Settings

**Port Management Settings >>**

HTTP Port  (1-65535)

Telnet  off  on

Telnet Port  (1-65535)

Local SIP port  (Default: 5060)

RTP port range  --

**Please Note:** After changing the default HTTP port 80, please restart the machine to take effect. Using the new HTTP port to access the Web user interface "http://ipaddr:port".

Port Management Settings	
HTTP Port	The default web port is 80,if you want to change it(for example change it to88), You must input IP and Web port to login the web page(for example <a href="http://192.168.0.200:88">HTTP://192.168.0.200:88</a> ). It will take effect on next reboot.
Telnet Port	The default Telnet port is 23,if you want to change it(for example change it to 2003). You must input IP and Telnet port to login the manage page (for example telnet 192.168.0.200:2003).It will take

	effect on next reboot.
Local SIP Port	You can change the local SIP port to another, The default local SIP port is 5060.
RTP Port Range	You can change the RTP port range to another, The default RTP port range is 10000 to 10128.

## QoS

Qos >> ?

SIP Qos  (0-63)

Voice Qos  (0-63)

ITEM	DECSRIPTIO
SIP QoS	The range is 0~63,default is 26
Voice QoS	The range is 0~63,default is 46

## Network Packet Mirroring

Network Packet Mirroring >>

Network Packet Mirroring  ▾

Network Packet Mirroring	When select on, then you can capture the phone's packet use notebook which connect to pc port of the phone
--------------------------	--

## 802.1x Settings

802.1x Settings >>

802.1x Mode

802.1x Identity

MD5 Password

CA Certificates

ITEM	DECSRIPTIO
802.1x Mode	You can setting the 802.1x mode to EAP-MD5 or PEAP-MSCHAPv2. Default is disable.
802.1.x Identity	You can setting the 802.1.x Identity here.
MD5 Password	You can setting the MD5 Password here.
CA Certificates	You can upload the CA Certificates here.

## LLDP

LLDP >>

LLDP  off  on

LLDP Packet Interval s(1-3600)

ITEM	DECSRIPTIO
LLDP	Enable/Disable the LLDP feature.
LLDP Packet Interval	You can setting the LLDP packet Interval here. Default is 60s.

---

## Paging Setting

**Paging Setting >>**

Paging 1	<input checked="" type="radio"/> off <input type="radio"/> on
Group IP	<input type="text"/> Port: <input type="text" value="10000"/>
Paging 2	<input checked="" type="radio"/> off <input type="radio"/> on
Group IP	<input type="text"/> Port: <input type="text" value="10000"/>
Paging 3	<input checked="" type="radio"/> off <input type="radio"/> on
Group IP	<input type="text"/> Port: <input type="text" value="10000"/>
Paging 4	<input checked="" type="radio"/> off <input type="radio"/> on
Group IP	<input type="text"/> Port: <input type="text" value="10000"/>
Paging 5	<input checked="" type="radio"/> off <input type="radio"/> on
Group IP	<input type="text"/> Port: <input type="text" value="10000"/>

**Paging Setting(NOTE: This feature priority is followed the serial number, In other words, "paging 1" is the highest priority)**

Paging1	Enable/Disable Paging feature.
Group IP and Port	Group IP and Port with Paging.

# 5 SIP Account

ITEM	DECSRIPTION
Auto Answer	Enable or disable auto answer feature, or you can turn on for group.
Auto Answer Mode	Select the auto answer mode
Call Waiting	This call feature allows your phone to accept other incoming calls during the conversation.
Call Waiting Tone	Set tone for prompting a new call during a call.
Auto Redial	Enable or disable auto redial feature
Auto Redial Interval (1~300s)	Setting the auto redial interval
Auto Redial Times (1~300)	Setting the auto redial times

Hot Line Function	Enable or disable hot line feature
Pickup Function	Enable or disable pickup feature
Pickup Code	Setting the pickup code
Play Hold Tone	Set tone for prompting hold on a call
DTMF	The mode of sending DTMF by pressing the number keys during a call
Suppress DTMF Display	Suppress DTMF display in taking
100 Reliable Retransmission	Enable or disable PRACK transmission
Fuzzy Search	Search phone book when dial number, and show match
Phonebook search	Choose phone book search type
Save Call List	Enable or disable save call list
BLF Transfer Connected call	Enable or disable BLF transfer connected call
BLF Transfer mode	Setting the BLF transfer mode to blind or attended
Status Light	Setting the status light to Show altering calls and casing LED or Only show altering calls or disable
Booking Voice mail	Enable or disable Booking Voice mail
Play Voice mail tone	Enable or disable Play Voice mail tone
Display missed Calls	Enable or disable Display missed Calls
DND Soft key	Enable or disable DND Soft key
Play Hangup Tone	Enable or disable Play Hangup Tone
Transfer Code	Enable or disable Transfer Code or number
Conference Code	Enable or disable Conference Code or number
Hold Code	Enable or disable Hold Code or number
Conference exit result	Setting disconnect all or others remain connected
Return code when refused	Set return message for call rejection.
Return code when DnD	Set return message for Do Not Disturb.
Hook	Setting the hook mode
Flash hook time (<800ms)	Setting the Flash hook time
Called No Answer Times	Setting the Called No Answer Times (Min:20, Max:1800)
Caller No AnswerTimes	Setting the Caller No AnswerTimes (Min:90, Max:1800)

Pound Send Method	Setting the Pound Send Method # or %23
RFC 2833 PayLoad	Setting the RFC 2833 PayLoad
Caller ID source	Setting the Caller ID source to FROM or PAI
SIP Session Timer(seconds) T1	Timer,a timer $H=64 \times T1$ seconds set for all transfers at the completed state. It defines when server transaction stops resending responses.
SIP Session Timer(seconds) T2	T2 use with T1.
SIP Session Timer(seconds) T4	T4 represents the possible information transmission time between the client and server side transaction on the network. The default value of T4 is 5 seconds.
Affiliated Port	Enable or disable register Affiliated port
Headset Mode	Headset Mode default is Normal, or you can select Seat Mode
Ring type in Seat Mode	Ring type in Seat Mode default is Headset, or you can select Speaker
BLF Light	Enable or disable BLF light

## 7.3 Time Settings

## 7.5 VoIP Call Forwarding

Always	<input checked="" type="radio"/> off <input type="radio"/> To voicemail <input type="radio"/> To this number: <input type="text" value="333"/>	?
If Busy	<input checked="" type="radio"/> off <input type="radio"/> To voicemail <input type="radio"/> To this number: <input type="text"/>	?
If No Answer	<input checked="" type="radio"/> off <input type="radio"/> To voicemail <input type="radio"/> To this number: <input type="text"/>	?
Ring Frequency	<input type="text" value="15"/> (Default: 15s, Max: 15s)	

ITEM	DECSRIPTIO
Always	All ways transfer the call to others.
If Busy	If the phone was busy working, the call will be transfer to others.
If No Answer	If the phone was no answer, the call will be transfer to others.
Ring Frequency	The ring frequency with the VOIP Call Forward.

## 7.6 Remote Control

Action URI allow IP List	<input type="text"/>	?
--------------------------	----------------------	---

List IP address of PC, who can remote control this device.

## 7.7 Action URL

It allows IP phone to interact with web server applications by sending an HTTP or HTTPS get request. You can specify a URL that triggers a get request when a specified event occurs. Action URL can only be triggered by the pre-defined events(e.g. Incoming Call). The valid URL format is: http(s)://IP address of the server/help.xml?.

Off Hook	<input type="text"/>	?
On Hook	<input type="text"/>	?
Incoming Call	<input type="text"/>	?
Outgoing call	<input type="text"/>	?
Established	<input type="text"/>	?
Terminated	<input type="text"/>	?

## 7.8 EP+

EP+ options are for the users who download the EP+ application on mobile phone.

[www.escene.cn/en](http://www.escene.cn/en)

---

After Completing below settings, EP+ will be activated. For more details, please refer to <http://escene.cn/productshow.php?cid=322&id=59&parentcateid=322>

Configure Mode	<input type="radio"/> Automatic <input checked="" type="radio"/> Manual
EP+	<input type="radio"/> off <input checked="" type="radio"/> Direct Connect <input type="radio"/> Roaming
Password	<input type="text" value="8760"/>
OutCode	<input type="text"/>
OutCode Length	<input type="text" value="0"/>
Door bell Code	<input type="text"/>
Open Door Password	<input type="text"/>
Roaming Server Address	<input type="text"/> : <input type="text" value="0"/>

You can download the Android/IOS EP+ APP by scanning the QR code below. After EP+ APP installed, you can follow the first installation guide to operate:

- A) Mobile phone need to be connected to LAN by using WIFI.
- B) Using EP+ APP to scan/manually input the IP Phone MAC code.
- C) Find the EP+ APP password form IP Phone's LCD menu or WEB. LCD: Press C > View Status > EP+ Password. WEB: Login WEB > Phone Setting > EP+. And then input the password into the EP+ APP.
- D) Press Login button.

Note: EP+ setting mode default is automatic. For more information, refer to EP+ user manual.

State	Show the status with MPL

## 8 Phone Book

The phone book including Group, Contact, LDAP and Ban list, please review the following for more details:

[www.escene.cn/en](http://www.escene.cn/en)

## 8.1 Contact

You can add, edit and delete contact in a phone book on this web page .  
The phonebook can storage 300 contacts entry

<input type="checkbox"/>	ID	Operation	Name	Phone	Group
<input type="checkbox"/>	1		test test	Number1: <a href="#">1111</a>	

---

Serial number:

First name:

Last name:

Office Number:  \*

Mobile Number:

Home Number:

Work Number:

Main Number:

Fax Number:

Other Number:

Group1:

If you want to add a Contact, you just ought to click 'Add Contact' .

You can edit an existed Contact by click .

You can delete an existed Contact by click , if you want to delete all Contacts, you just ought to click 'Delete All Contact'.

You can edit or move this contact to Ban List after you select .

You can download and save this contact to PC after you select .

## 8.2 Group

You can add, edit and delete group in a phone book on this web page.

ID	Operation	Group name	Group member	Description	Ring type
1		<a href="#">testgroup1</a>	0	testgroup1	Ring2

---

Serial number	1 ▾
Description	testgroup1
Group name	testgroup1
Ring type	Ring2 ▾
<input type="button" value="Submit"/> <input type="button" value="Cancel"/>	

If you want to add a Group, you just ought to click 'Add Group' .

You can edit an existed Group by click  .

You can delete an existed Group by click  , if you want to delete all Groups, you just ought to click 'Delete All Group'.

## 8.3 LDAP

**NOTES: If you want to know more detail about LDAP, pls find it in the office website to download the specific document. [HTTP://www.escene.cn/en](http://www.escene.cn/en). As below figure is an example.**

e.g.

LDAP Name Filter:(sn=%s)

LDAP Number Filter:(telephoneNumber=%s)

Server Address:192.168.0.65

BASE:DC=ldap,DC=escene,DC=com

User Name: bb@ldap.escene.com

Pass Word: escene\_2012

LDAP Name Attributes 1:sn

LDAP Name Attributes 2:cn

LDAP Number Attributes 1:telephoneNumber

---

LDAP	<input type="radio"/> on <input checked="" type="radio"/> off	?
LDAP Name Filter	<input type="text"/>	?
LDAP Number Filter	<input type="text"/>	?

ID	Operation	Name	Phone	Description	Account
1	  	name1 lastname1	Number1:1111 Number3:2222	blacklist1	1

If you want to add a Ban List, you just ought to click 'Add Ban List'.

You can edit an existed Ban List by click .

You can delete an existed Ban List by click , if you want to delete all Ban List, you just ought to click 'Delete All Ban List'.

You can edit or move this contact to Contact after you select .

## 8.5 Phone Call Info

You can remote or local control the IP phone to make a call by WEB.

Dial a Number

Outgoing Account

---

# 9 Maintenance

**NOTES: Don't cut off the electricity or network cable when doing upgrade in the below ways!**

## 9.1 HTTP Upgrade

You can upgrade the software, kernel and configuration etc. files by HTTP.

Select a File	<input type="text"/>	<input type="button" value="浏览..."/>
Software Upgrade	<input type="button" value="Upgrade"/>	
Configuration	<input type="button" value="Upload"/>	<input type="button" value="Download"/>
XML Personal Phonebook	<input type="button" value="Upload"/>	<input type="button" value="Download"/> <input type="button" value="View Phonebook"/>
CSV Personal Phonebook	<input type="button" value="Upload"/>	<input type="button" value="Download"/> <input type="checkbox"/> Show CSV Title
Vcard	<input type="button" value="Upload"/>	<input type="button" value="Download"/>
EXT Module	<input type="button" value="Upload"/>	<input type="button" value="Download"/>
Log	<input type="button" value="Download"/>	
All Config Files	<input type="button" value="Download"/>	

When using HTTP upgrade, you can set several parameters as follow:

HTTP Upgrade	
Select a File	Browse the software/kernel/configuration file which you need to upgrade from HTTP
Software Upgrade	Used for upgrading the software of the phone
Kernel Upgrade	Used for upgrading the kernel of the phone
Configuration	You can used upload/download to upload/download the configure file of the phone
XML Phone Book	Used for uploading/downloading the XML phonebook of the phone
Vcard	Downloading all contacts in the Vcard mode, but upload only support one by one.
EXT Module	Used for updating/backup the expansion of the phone <b>[NOTES: The mode doesn't support this feature]</b>
Log	Used for the administrator to find out or making sure the problem with this equipment.
All Config File	All Config File includes: Configuration, Extern, Log, XML Phone book, Enterprise Phone Book.

---

## 9.2 FTP Upgrade

You can upgrade the software, kernel and configure files by FTP.

Server IP	<input type="text"/>	Note: It's not necessary to input a file name for backup.
File name	<input type="text"/> ()	
Username	<input type="text"/>	
Password	<input type="text"/>	
Software Upgrade	<input type="button" value="Upgrade"/>	
Configuration	<input type="button" value="Update"/> <input type="button" value="Backup"/>	
Phone Book	<input type="button" value="Update"/> <input type="button" value="Backup"/>	
EXT Module	<input type="button" value="Update"/> <input type="button" value="Backup"/>	

When using FTP upgrade, you can set several parameters as follow:

FTP Upgrade	
Server IP	The IP address of the FTP server
Filename	Downloading from FTP server
Username	Providing by FTP server
Password	Providing by FTP server
Software Upgrade	Used for upgrading the software of the phone
Kernel Upgrade	Used for upgrading the kernel of the phone
Configuration	Used for updating/backup to update/backup the configure file of the phone
Phone Book	Used for updating/backup to update/backup the phonebook of the phone
EXT Module	Used for updating/backup the expansion of the phone <b>[NOTES: The mode doesn't support this feature]</b>

**NOTES: It's not necessary to input filename when doing backup Configuration, Phone Book, EXT Module.**

## 9.3 TFTP Upgrade

You can upgrade the software, kernel and configure files by TFTP.

Server IP	<input type="text"/>
File name	<input type="text"/> Note: It's not necessary to input a file name for backup.
Software Upgrade	<input type="button" value="Upgrade"/>
Configuration	<input type="button" value="Update"/> <input type="button" value="Backup"/>
Phone Book	<input type="button" value="Update"/> <input type="button" value="Backup"/>
EXT Module	<input type="button" value="Update"/> <input type="button" value="Backup"/>

When use TFTP upgrade, you can set several parameters as follow:

TFTP Upgrade	
Server IP	The IP address of the TFTP server
Filename	Downloading from FTP server
Software Upgrade	Used for upgrading the software of the phone
Kernel Upgrade	Used for upgrading the kernel of the phone
Configuration	Used for updating/backup the configure file of the phone
Phone Book	Used for updating/backup the phonebook of the phone
EXT Module	Used for updating/backup the expansion of the phone <b>[NOTES: The mode doesn't support this feature]</b>

**NOTES: It's not necessary to input filename when doing backup Configuration, Phone Book, EXT Module.**

## 9.4 Auto Provisioning

When you open this auto provision feature, the phone will do auto provision after it detect a different software or kernel (Higher or Lower) which are putted on the TFTP,HTTP,HTTPS,FTP, server. For the detailed information about auto provision, you can find it in the official website: [HTTP://www.escene.cn/en](http://www.escene.cn/en)

PNP active	<input checked="" type="radio"/> on <input type="radio"/> off <span>?</span>
PNP Interval (minutes)	<input type="text" value="60"/>
Auto Provision	<input checked="" type="radio"/> on <input type="radio"/> off
Protocol	<input type="text" value="TFTP"/> ▼
Software Server URL	<input type="text" value="voip.autoprovision.com"/>
Username	<input type="text"/>
Password	<input type="text"/>
Auto Download Software	<input checked="" type="checkbox"/>
Auto Download Config File	<input checked="" type="checkbox"/>
Auto Download Expansion	<input checked="" type="checkbox"/>
Auto Download Enterprise Phonebook	<input checked="" type="checkbox"/>
Auto Download Personal Phonebook	<input checked="" type="checkbox"/>
Booting Checked	<input checked="" type="checkbox"/>
Zero Active	<input checked="" type="radio"/> off <input type="radio"/> on <span>?</span>
Wait Time(1~100s)	<input type="text" value="10"/> <span>?</span>
Disable the phone while booting	<input checked="" type="radio"/> off <input type="radio"/> on
Auto Provision Frequency	<input type="text" value="168"/>
Auto Provision Time	<input type="text" value="None"/> ▼
Next Auto Provisioning	Wed Jul 5 11:29:04 2017 <input type="button" value="Reset timing"/>
AES Enabled	<input checked="" type="radio"/> off <input type="radio"/> on
AES Key	<input type="text"/>
Download file name	<input type="text" value="Default"/> ▼
<input type="button" value="Auto Provision now"/>	

When using auto provision, you can set several parameters as follow:

<b>Auto Provision</b>	
PNP active	The request to the server is to obtain a support URL for upgrade.
PNP Interval(minutes)	Setting the PNP interval.
Auto Provision	You can enable/disable auto provision by select on/off
Protocol	Used for auto provision, it includes TFTP/HTTP/FTP
Software Server URL	The server address of the auto provision
Username	Providing by provision server
Password	Providing by provision server

Auto Download Software	Used for auto download software from server
Auto Download Kernel	Used for auto download kernel from server
Auto Download Config File	Used for auto download config file from server
Auto Download Expansion	NOTES: The model doesn't support this feature.
Auto Download Enterprise Phonebook	Used for auto download Enterprise Phonebook from server
Auto Download Personal Phonebook	Used for auto download personal phonebook from server
Bootling Checked	Used for checking the auto provision when phone booting
Zero Active	Enable or disable zero-sp-touch which is used to download configuration on the server during the phone power on.
Wait Time(1~100s)	The time when configuration interface of zero-sp-touch will show up when power on.
Disable the phone while bootling checking	Enable/Disable the bootling checking feature.
Auto Provision Frequency	Used for setting the time interval for auto provision
Auto Provision Time	Used for the specific time for auto provision
Auto Provision Next Time	Reset the Auto Provision Next Upgrading time.
AES Enable	You can enable/disable AES encrypt for auto provision
AES Key	The key of the AES
Download file name	Setting the download file name for Upper case or Lower case
Auto Provision Now	Used for doing auto provision immediately

## 9.5 Log

This feature is use for the administrator to managing the equipment, like debugging, SIP etc,. If you need to catch a debugging Level, you need to setup on this interface.

# 10 Security

## 10.1 Password

Here you can setting the administrator or user WEB password management. Select your type. If you login as an administrator, you can modify both the user's and admin's passwords.

---

Administrator  User

Username

Old password

New password

Confirm password

## 10.2 Trusted Certificates

Name	Begin time	End time	Operation
Trusted certificates upload			<input type="text"/> 浏览...
<input type="button" value="upload"/> <input type="button" value="Delete all certificates"/>			

## 10.3 IP Strategy

You can use IP Strategy feature to make a list which can be set to only allow the incoming call on the list.

e.g. As following picture you can see it has 192.168.0.248 in the list. When you open this feature. It means you just allow come from this IP address meeting

IP Strategy  off  on

ID	Operation	IP Address	Description	Account
<input type="button" value="Add IP Strategy"/> <input type="button" value="Delete all IP Strategies"/>				

# 11 WEB Other Settings or Information - Appendix

## 11.1 Logout

Logout the IP Phone web management.

## 11.2 Note Tips

In the right middle of the website page, there is a Note tips in every function page. Hope it can help you to know something about that.

### Note

#### **Register status:**
